There is a special event on Facebook for the “Surveillance After Snowden” plenary session (Thursday, 19h):

Surveillance: Ambiguities and Asymmetries

Contemporary surveillance is characterised by ambiguities and asymmetries. Surveillance results from different desires and rationales: control, governance, security, profit, efficiency but also care, empowerment, resistance, and play. Furthermore it can have both positive and negative outcomes for individuals and these may lead to intended or unintended consequences. Surveillance is never neutral. Surveillance is always about power and that power is increasingly asymmetric. Surveillance practices are also changing and as 'smart' surveillance systems proliferate utilising and generating 'Big Data' new forms of ambiguity and asymmetry arise. This event provides a rare opportunity to meet in the one place the foremost global academics, activists, journalists, policymakers, and think tanks in the surveillance studies field, which continues to shift its influence from the fringes of sociological studies to one that is increasingly informing policy, media and citizens.

The 6th bi-annual SSN conference will see Edward Snowden's legal attorney, Ben Wizner of the American Civil Liberties Union, speak on a dedicated "Surveillance after Snowden" panel, together with Caspar Bowden and Katarzyna Szymielewicz.

Venues

The conference will be held at two venues: The CCCB and the University of Barcelona. The entrances to both venues are facing each other, on Carrer Montalegre 5 (CCCB) and 6 (University of Barcelona).

CCCB – Centre de Cultura Contemporània de Barcelona

The CCCB is composed by different buildings and the main entrance is on Carrer Montalegre, 5. The rooms that are booked for the conference are:

- Aula 1 (Thursday 24th; Saturday 26th)
- Aula 2 (Thursday 24th; Saturday 26th)
- Mirador 1 (4th floor) and 2 (5th floor) (Thursday 24th);
- Auditori (Saturday 26th)

University of Barcelona, Faculty of Geography and History

The Faculty is composed by two buildings and the main entrance is on Carrer Montalegre, 6. The rooms that are booked for the conference are all located in the main building (which is on the right of main entrance). The rooms are:

- Room 203 – 2nd floor (Friday 25th)
- Room 204 – 2nd floor (Friday 25th)
- Room 401 – 4th floor (Friday 25th)
- Room 402 – 4th floor (Friday 25th)
- Aula Magna – 4th floor (Thursday 24th and Friday 25th)

How to get to the venues

From any point in the city

Unless you are staying nearby, the best way to get to the venues is by taking the underground. The nearest stops are Universitat (L1, red line; L2, purple line) and Catalunya (L1, red line; L3, green line).

From the airport

Barcelona has two terminals. T1 is only serviced by bus. T2 is serviced by bus and train.

Bus

You can take the “Aerobus”, a bus service that connects the **Airport** with the **centre of Barcelona** in less than 30 minutes, leaving every 5-10 minutes every day of the year. If you want to go to the venues, get off at the 4th stop, ‘Universitat’ (the last stop is ‘Catalunya’, still walking distance to the venues).

Tickets can be bought on the bus and cost 5,90/10,20€ (single/return valid for 15 days). For more information visit their site: <http://www.aerobusbcn.com/>

Train

A train leaves T2 towards Barcelona every 20-30 minutes and takes 30 minutes to reach the city centre (Plaça Catalunya), near the venues. You can get a single ticket or a T-10 valid for 10 trips in any public service which can be used by different people. To find out the times and fares, go to <http://www.renfe.com/EN/viajeros/cercanias/barcelona/index.html>.

At night

There is also a night bus, the N17, which goes to Plaça Catalunya and runs every 20 minutes between 10pm and 5am.

Taxi

Another option is to take one of the official city taxis. These are yellow and black and a green light on the roof indicates they are available. The ride should cost between 25 and 30€.

Practical information at the venues

Registration desk

The registration desk will open from 08:30 on Thursday April 24th until noon on Saturday April 26th.

On Thursday and Friday it will be located in front of UB Aula Magna, on the 4th floor. To get there you must go through the main entrance of the Faculty (c/ Montalegre, 6) and reach the fourth floor (there are lifts and staircases). We aim to have someone there to help you at all times. But, if in the unlikely event you do not find anyone there, please refer to a member of our team (ORG in their badges).

On Saturday it will be located at the hall of CCCB Aula 1.

Registration fees for the whole conference include the conference pack, refreshment for the three days and lunch on Thursday and Friday.

On arrival at the reception desk you will be given your conference pack, including the badge. The badge will be needed to enter sessions, the plenaries, and to access the catering area (UB Aula Magna), so please wear it at all times.

Full papers and abstracts booklet

Full papers are available from the abstracts' section on the website. All of them are key-protected and the password is 6SSNbcn2014 (case sensitive).

WI-FI network

Both buildings are equipped with Wi-Fi connection. For the CCCB the credentials are:

SSID: Surveillance
Pasword: 6ssn2014

The username and password for the UB will be made available to the conference attendees at the registration desk, along with the conference pack. Eduroam will also be available.

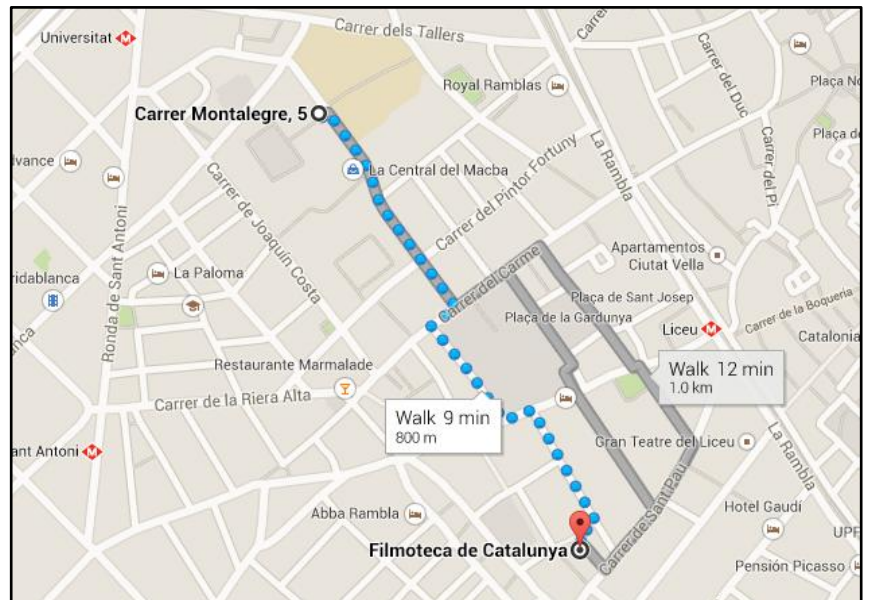

Open plenary session

The open plenary will be open to the public. No need to wear badges.

Conference Dinner

On Friday April 25th participants with a pre-booked dinner voucher can join us at 'La Monroe', the restaurant of the Filmoteque, from 20:00h onwards. Different activities have been organised, and participants may win surveillance prizes during the meal.
